

QUÉBEC NICKEL

CSE: QNI OTCQB: QNICF FSE: 7IB

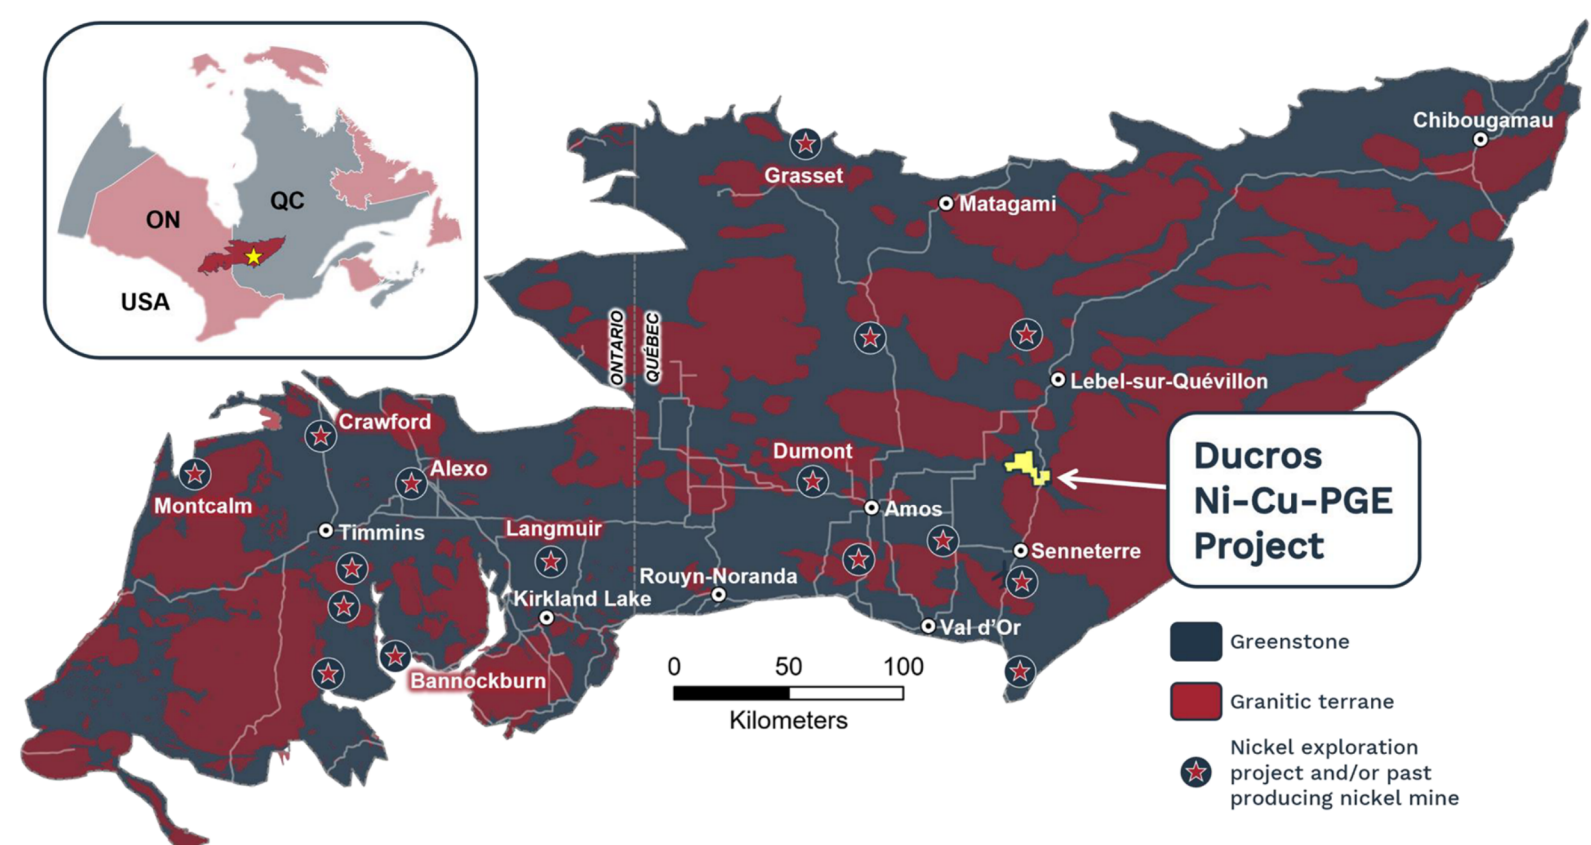

Québec Nickel Corp. is a Canadian exploration company currently exploring for Nickel-Copper-PGE deposits in the province of Québec.

ABOUT US

Québec Nickel Corp. (“QNI”) maintains a 100% ownership stake in a prospective Nickel-Copper-Platinum Group Element property (“The Ducros Project”) located in the Eastern Abitibi Greenstone Belt. Recent exploration drilling at QNI’s Ducros Property is highlighted by 1.85% Ni + 1.65% Cu + 3.27 g/t Pt-Pd-Au over 8.43 metres at the Fortin Sill Zone.

HIGHLIGHTS

- ✓ High-grade Ni-Cu-PGE-Au mineralization recently drilled at Fortin Sill Zone over significant core lengths; up to 4.75% Ni+Cu plus 5.78 g/t Pt-Pd-Au from individual core samples.
- ✓ Step-out & expansion drilling of Fortin Sill Zone in progress; drilling at DUSC initiated with 2nd drill.
- ✓ Channel sampling confirms the entire Fortin Sill discovery outcrop hosts Ni-Cu-PGE mineralization.
- ✓ Numerous untested VTEM™ Ni-Cu-PGE targets identified across the entire property including at the Ducros Ultramafic Sill Complex and Ducros Gabbro targets.
- ✓ UAV high-resolution magnetic surveys being used to refine drill targets.
- ✓ Airborne gravity survey data integration & development into 3D structural model of property.
